## JOIN US IN **ORLANDO** FOR THESE BEST-SELLING COURSES!

As the recognized authority and principal educator for the internal audit profession, The IIA provides comprehensive and in-depth training on a variety of topics. We are bringing our training to Orlando on April 3–6, featuring eight courses. Courses include:

- **Tools & Techniques I: New Internal Auditor** provides auditors with three or fewer years of experience with a strong base of knowledge and an understanding of basic audit skills.
- **Tools & Techniques II: Lead Auditor** is designed for auditors with three to six years of experience, and provides all the elements and practices needed to lead an audit project.
- **COSO-based Internal Auditing** helps internal auditors understand the COSO internal control and risk management frameworks needed to carry out their roles and responsibilities. These frameworks can contribute value to strategic business planning, governance, and execution, monitoring, and adapting processes for any organization.
- **Analyzing and Improving Business Processes** provides the tools and techniques to use in any process analysis engagement, along with hands-on applications using case studies and the participants' own processes.
- **Assessing Risk: Ensuring Internal Audit's Value** provides practical insights relating to contemporary best practices of risk assessment activities and allows participants to apply what they have learned so that they can implement risk assessment activities at their organization.

And more! Visit [www.theiia.org/Training](http://www.theiia.org/Training) for more information about training opportunities.
