The IIA’s Chicago chapter is hosting a special training event this summer featuring nine of our best-selling courses as part of a unique learning experience. Courses offered during this seminar week include:

- **Beginning Auditor Tools and Techniques** provides new auditors with a strong base of knowledge and an understanding of basic audit skills. New internal auditors will learn to prepare properly for and conduct a successful audit, and gain an understanding of how to identify risks and internal controls.

- **Assessing Risk: Ensuring Internal Audit’s Value** offers practical insights and best practices for risk assessments, and gives attendees information on the fundamentals of risk assessment; nuances such as audit universe, risk appetite, and fraud; and the challenges of implementation.

**OTHER COURSES:**

- Building a Sustainable Quality Program
- COSO Internal Control Certificate
- Cybersecurity Auditing in an Unsecure World
- Financial Auditing for Internal Auditors
- Fundamentals of IT Auditing
- Leadership Skills for Auditors
- Performing an Effective Quality Assessment
