Lessons Learned: What Went WRONG

Within Internal Audit
- Hesitation to take on high profile role
- Key risks not adequately mapped

Internal Audit within the Organization
- Delayed understanding of full range of risks
- Internal audit not involved soon enough

Auditing In a Time of Crisis

- Agility
- Flexibility
- Creativity

Business Continuity

- Direct engagement in continuity planning
- Assurance

Technology

- Roles
- Responsibilities
Seize the Opportunity

- Participate in crisis management committees
- Identify new and changed risks
- Eliminate duplications and bottlenecks in new processes
- Be agile, including finding ways to work remotely
- Provide answers as liaison to the board, audit committee
- Be a humble but confident protector and nurturer
- Work closely with first and second lines, as well as with external audit, by asking, “How can we help?”
- Prepare to deal with pressures to “cross the lines” by assuming management responsibilities
Sustainability

- Agility
- Talent
- Collaboration
- Tenacity
TACTT: It’s how we become RESILIENT

- Technology
- Tenacity
- Agility
- Collaboration
- Talent
4IR, data analytics, robotic process automation, and artificial intelligence enable continuous monitoring and faster detection of problems.

- Improves focus on risks and big picture
- Special needs, rising demand during crisis
- Skills needed for day-to-day and challenging times
- Data and digital impact on business models
- Leverage governance, risk and compliance platforms
- Cyber world risks and opportunities
Ability to anticipate, respond swiftly to changing landscape, and reshape

- A challenge for tight-knit teams
- Audit activities align with organizational priorities
- IA provides relevant and reliable insights and advice to foster innovation and improvement
- Anticipate emerging issues – swift response
- Agile mind and methodology
Collaboration

Ability to work together even when apart

- Strategic
- Necessity of shared resources – and free content
- Convergence of different disciplines
- Innate intelligence - CQ (collaborative, connective intelligence)
- Embrace combined assurance
- Adopt the Three Lines Model
- Tone at the top, tune in the middle, rhythm on the dance floor
Knowledge and training position us to provide valuable insight and help our organizations anticipate and prepare for the future.

- Commit to certification and continuous professional development
- Embrace diversity
- Adapt to non-audit roles as appropriate
- Cultivate continuous commercial awareness
- Nurture innate intelligence
- Adopt drone mentality
Tenacity

Internal audit must have the courage to share views on the risk landscape, providing advice and assurance from within organizations to help people:

• Understand the internal and external environments in which they operate
• Make better-informed, risk-based decisions
• Achieve their goals effectively, efficiently, ethically, and sustainably in support of both the function and the business/organization.
Resilience does not come about by accident: It takes hard work and ongoing commitment. But as directors and executives, we may have a more important role. All of our actions should have the ultimate goal of preparing our organizations to face the future — and that future is one of increasing risks and uncertainty, in which only the best-prepared organizations are likely to survive.

Guided by the Three Lines

The IIA’s Three Lines Model

**GOVERNING BODY**
Accountability to stakeholders for organizational oversight
Governing body roles: integrity, leadership, and transparency

**MANAGEMENT**
Actions (including managing risk) to achieve organizational objectives
First line roles: Provision of products/services to clients, managing risk
Second line roles: Expertise, support, monitoring and challenge on risk-related matters
Third line roles: Independent and objective assurance and advice on all matters related to the achievement of objectives

**INTERNAL AUDIT**
Independent assurance

**EXTERNAL ASSURANCE PROVIDERS**

**KEY:**
↑ Accountability, reporting
↓ Delegation, direction, resources, oversight
↔ Alignment, communication, coordination, collaboration

**Governing Body**
- Integrity
- Leadership
- Oversight

**Management**
- Strategy
- Execution
- Risk – compliance and support

**Internal Audit**
- Accountable to governing body
- Independent, objective assurance
- Related advisory
Let’s work together to:

- Rescan the landscape
- Refocus on new realities
- Reshape audit perceptions
- Reinvent internal audit
“The future belongs to those who are prepared for it.”
