

ACCIDENT FUND HOLDINGS, INC.

Immediate Internal Audit Job Opportunity at Accident Fund Holdings, Inc

Job Title – Senior Audit Consultant

Corporate Audit and Advisory Services (CAAS) takes a proactive approach to auditing by providing consulting services to business units through value-added reviews of systems, business processes, financial and operating controls. Functions as a highly skilled internal control consultant responsible for conducting internal audits/reviews, providing risk education and project consulting services on behalf of the corporation to mitigate risk and assess the control environment of each auditable unit. Provides supervision and training for lower level audit staff.

This position will also research and develop audit programs with minimal supervision. This position is responsible for planning, organizing, analyzing, researching, executing and reporting the results of complex, technical audits/reviews conducted on business units or an operating unit based on audit schedule.

This position acts as the liaison with external auditors during their annual independent audits of the company. Also, lead the department's testing of the model audit rule testing for the enterprise.

EDUCATION OR EQUIVALENT EXPERIENCE:

Bachelor's degree in accounting, finance, information systems or related field. Completion of industry recognized professional designations; i.e. CISA (certified information systems auditor), CPA (certified public auditor), CFE (certified fraud examiner) or CIA required.
