Join the over 150,000 certified internal auditors worldwide awarded the who know the value of earning the Certified Internal Auditor (CIA) designation. As a matter of fact, earning a professional internal audit credential is a critical step to being distinguished from your peers and will:
- Enhance credibility and respect.
- Sharpen skills and proficiencies.
- Increase advancement and earning potential.
- Demonstrate understanding and commitment.

Wherever your journey takes you, the CIA accelerates your success as a credible and proficient internal auditor.

As The IIA’s premier designation for more than 40 years, the CIA sets the standard for excellence within the profession. Earning the CIA is an important step toward demonstrating your core internal audit skills and knowledge.
The CIA exam is changing in January 2019. Learn more.
The IIA is excited to announce the development of The IIA Certification Registry. The IIA Certification Registry is an up-to-date record of individuals who have earned an IIA certification and maintain it by reporting continuing professional education (CPE) to keep their credential active. All IIA active certification holders who choose to voluntarily opt-in will be included in the registry, which will be launched in 2019. This is an opportunity for employers and recruiters to verify your certification.

The IIA Standards require continuing professional education (CPE) of all internal auditors. The IIA’s Professional Certification Board requires all certification holders to complete and report CPE annually so their certifications remain in good standing. Individuals who do not meet the annual CPE requirement will not be included in The IIA Certification Registry nor claim the certification status.
