The IIA is excited to announce the development of The IIA Certification Registry. The IIA Certification Registry is an up-to-date record of individuals who have earned an IIA certification and maintain it by reporting continuing professional education (CPE) to keep their credential active. All IIA active certification holders who choose to voluntarily opt-in will be included in the registry, which will be launched in 2019. This is an opportunity for employers and recruiters to verify your certification.

The IIA Standards require continuing professional education (CPE) of internal auditors. The IIA’s Professional Certification Board requires all certification holders to complete and report CPE annually so their certifications remain in good standing. Individuals who do not meet the annual CPE requirement will not be included in The IIA Certification Registry nor claim the certification status.
