About the Speaker:

Gary Warner is the Director of Research, Computer Forensics at the University of Alabama at Birmingham.

Research and Teaching Interests: Research interests – Cybercrime investigations, especially email-based crimes: (malware, phishing, and spam), Open Source Intelligence analysis (OSINT); Teaching interests – Computer Forensics, Malware Analysis

Education:

- BS, UAB, Computer Science

Born and raised in the MidWest, Warner came to Alabama to attend UAB and has been here since 1986. Involved in cyber security since 1989, he began his career helping large organizations connect securely to the Internet for the first time. He has worked as an IT Director for a local publicly-traded utility, and has served as a Task Force Officer for the FBI Cybercrimes Task Force. With regards to Critical Infrastructure Protection, he founded the Birmingham InfraGard chapter, and has served on the national boards of the FBI’s InfraGard program and DHS’s Energy ISAC. Warner is a published haiku poet, a former ballet dancer, and active in the Prison Ministry at Church of the Highlands.

Since arriving at UAB in 2007, Warner has created and taught a variety of classes in Computer Science and Justice Sciences related to Cyber Security and Computer Forensics. More than 150 students have worked as employees or volunteers in the UAB Computer Forensics Research Lab, which was established in March of 2010, serving the community by assisting in investigations for an impressive list of law enforcement agencies. In 2012, inventions and patents from the lab were licensed to create Malcovery Security, a local cyber intelligence company with more than 20 employees where Warner serves as CTO. In 2013, the lab doubled in size with the creation of the Facebook Suite, largely funded by a generous contribution from Facebook in response to our assistance in fighting cybercrime.

Academic Distinctions & Professional Societies:

- Microsoft MVP in Enterprise Security 2007-2012
- MAAWG J.D. Falk Award (Messaging, Malware, Mobile Anti-Abuse Working Group)
- FBI Director’s award “for Exceptional Service in the Public Interest”
- IC3.gov/NCFTA Partnership Award, “In recognition of outstanding support in the ongoing battle against cyber crime”
- UAB “Outstanding Alumni Award” from School of Natural Sciences and Mathematics

Promote the IIA Profession

Are you promoting the IIA profession ~ through speaking engagements, training or recruiting? Tell us about it. Contact Jason Ryu for more information and proper credit at jason.ryu@fedex.com
The CIA exam is available through computer-based testing, allowing you to test year-round at more than 500 locations worldwide. Candidates are able to sit for exams at any IIA-authorized Pearson VUE testing center worldwide, regardless of whether the testing center is located in your hometown or country. To locate the testing centers nearest you, visit the Pearson VUE website. You must apply and register in The IIA’s Certification Candidate Management System (CCMS) prior to scheduling an exam.

Certified Internal Auditor (CIA)

The Certified Internal Auditor® (CIA®) designation is the only globally accepted certification for internal auditors and remains the standard by which individuals demonstrate their competency and professionalism in the internal auditing field. Since the program’s launch in 1973, it has opened up countless doors of opportunity for practitioners around the world as it communicates their ability to serve as a key player in their organization’s success. Candidates leave the program enriched with educational experience, applicable knowledge, and business tools that can deliver a positive impact in any organization or business environment.
