**Learning Objectives:**

Operating a business has become more complex over the last few years, especially with increased regulations and emerging technology. If you add the changes in the insurance marketplace, companies can easily have gaps in coverage that can put them out of business in the event of a disaster. Here are some key insurance coverages and risk management strategies to keep in mind:

- Loss of Data
- Commercial Crime and Fraud
- Employment Practices Liability
- Directors and Officers Liability
- Business Interruption
- Contractual Liability

**Speaker:** Jeff Eiserman

Jeff Eiserman is a Business Risk Advisor with Ollis/Akers/Arney, an Independent Insurance Agency in Springfield, Missouri. As a former business owner, he uses his experience to help businesses identify their unique areas of risk and develop long-term plans to address that risk. Working with several Non-profits, Manufacturers, Technology Companies and Educational Institutions, he understands how to structure insurance programs addressing today’s complex market of Workers Compensation, corporate fraud issues and Cyber-crime.

Jeff was named to the inaugural class of Trusted Advisers as named by Springfield Business Journal in 2014.

Jeff graduated cum laude from Missouri State University in 1991 with a Bachelor of Science in Marketing. He recently served as President of the Board of Directors of the Discovery Center of Springfield and currently serves on the Board of Trustees at The Summit Preparatory School.

RSVP: Jessica Brock, 417-235-4114 ext. 721367 or OzarksChapterIIA@gmail.com by October 20th at 5:00 pm.
