President’s Message

Safety is about a thousand times less of a concern than our views on how to bring more to the audience and services to the members. I am committed to ensure that the Portland Chapter remains relevant and valuable to our members. The IIA will be working on a new website that will launch later in the year. In the interim, please reach out via email or on social media to let us know your thoughts on what you would like to see in the new website.

I hope that you are happy to see the launch of two new journals: The IIA’sModifiedDate and the IIA’sModifiedDate. The ModifiedDate has been a core source for internal audit practitioners around the globe, featuring recent performance, outlook and risks. We are looking for a new editor to have Tiffany Couch join us to talk about Fraud! Also, we are collaborating on The ModifiedDate to host a Call for Volunteers: Part 2 and Part 3 in May. More information can be found in the “Upcoming IIA Portland Chapter Events" section of this newsletter.

In honor of Internal Audit Awareness month in May, we also be sending out two annual surveys in the next month: the member satisfaction feedback survey for the next chapter year's officers and another survey for the next chapter year's officers and another survey for the next chapter year's officers.

In the newsletter for The IIA’sModifiedDate, Emerging Data Governance, I talk about the growth of emerging data governance and how it is impacting the internal audit profession. In this newsletter, I would like to discuss the growth of emerging data governance and how it is impacting the internal audit profession. In this newsletter, I would like to discuss the growth of emerging data governance and how it is impacting the internal audit profession. In this newsletter, I would like to discuss the growth of emerging data governance and how it is impacting the internal audit profession.

In April, the Portland Chapter is hosting a luncheon on the Oregon Government and Public Sector Highlights. The luncheon will be in honor of Internal Audit Awareness month in May, and will feature a presentation on the Oregon Government and Public Sector Highlights. The objective of emerging data governance is to help organizations manage the increasing volume, velocity, and variety of data. It is about understanding how data is created, how it is used, and how it is stored. It is also about understanding how data is created, how it is used, and how it is stored. It is also about understanding how data is created, how it is used, and how it is stored. It is also about understanding how data is created, how it is used, and how it is stored.

We love to hear from you! Please reach out via email or on social media to let us know your thoughts on what you would like to see in the new website.

Thank you again for being a Portland Chapter member!

Lauren Toda
IIA Portland Chapter President

IIA Covid-19 Resource Exchange

The IIACovid-19 Resource Exchange is a comprehensive source for internal audit practitioners around the globe, featuring new guidelines, best practices, and tools to help you stay current with the latest developments and advancements. We are here to provide guidance and support during these unprecedented times, helping you navigate the challenges and opportunities presented by the pandemic.
