The IIA’s Seattle chapter is hosting a special training event this summer featuring two of our best-selling courses as part of a unique learning experience. Chapter members can take advantage of special pricing for this training, and choose between:

- **Beginning Auditor Tools and Techniques** provides new auditors with a strong base of knowledge and an understanding of basic audit skills. New internal auditors will learn to prepare properly for and conduct a successful audit, and gain an understanding of how to identify risks and internal controls. This is a condensed, three-day, 24 CPE version of this course.

- **Auditor-in-charge Tools and Techniques** trains audit leaders to oversee an audit team and ensure every project runs smoothly. This course covers the organizational, time management, and problem solving skills that are necessary to run a successful team. This is a condensed, three-day, 24 CPE version of this course.
